TRITON® QUICKSTART IMPLEMENTATION PACKAGE

TRITON AP-Endpoint:
Onsite Delivery,
Large/Enterprise Company

Part Number: EP52-X-XX00-N
TRITON AP-Endpoint - High Complexity Implementation QuickStart
Overview

Proficiency and precision are necessary to effectively implement quality security solutions. To help you get the most out of your Websense® Data Security Suite solution, Websense provides implementation packages to:

- Deploy your solution efficiently and effectively
- Optimize your security policies
- Maximize your satisfaction with the implementation process

Deliverables and Responsibilities

Delivery personnel will work closely with client staff to perform the following activities:

- Facilitate a kick-off meeting to provide an overview of the engagement process including the responsibilities of each party
- Plan and schedule the installation and implementation activities
- Creation and validation of design diagrams and design analysis
- Creation of onsite checklists to help the client prepare for the onsite engagement
- Validation of all Websense solution components including TRITON Management Server (Includes activities associated with the TRITON Management Server Implementation package)
- Endpoint/Data in Use Implementation:
  - Assistance with roll-out and troubleshooting of up to 10 DLP Endpoint agents
  - Initial Endpoint functionality testing
  - Backup of Endpoint Encryption keys
- Knowledge Transfer
  - System and Architecture Overview
  - System Navigation
  - Rule/Policy Creation
  - User/Group Creation
  - Local Events, Alerting and Settings
  - Basic Reporting and Workflow

Client Requirements, Responsibilities and Resource Availability

The client must be able to provide the following components:

- Websense licenses
- AD service account
- Availability of infrastructure, management, and network resources
- Access to install Endpoint software and ability to push out Endpoint Agent software
- Scheduled downtime

Client will be contacted within 48 hours of their order being processed to schedule the project kick-off call. Actual engagement dates will be determined during the kick-off call.
TRITON QUICKSTART IMPLEMENTATION PACKAGE

Package Limitations

- Onsite installation of up to 6 Data Endpoint Servers
- Deployment of up to 10 endpoint agents
