TRITON® QUICKSTART IMPLEMENTATION PACKAGE

TRITON AP-Web Cloud
Onsite Delivery, Large/Enterprise Company

Part Number: WB53-X-XX00-N
TRITON AP-Web Cloud - Low Complexity QuickStart Implementation
Overview

Proficiency and precision are necessary to effectively implement quality security solutions. To help you get the most out of your Websense® Web Security Gateway solution, Websense provides implementation packages to:

- Deploy your solution efficiently and effectively
- Optimize your security policies
- Maximize your satisfaction with the implementation process

Deliverables and Responsibilities

Delivery personnel will work closely with client staff to perform the following activities:

- Facilitate a kick-off meeting to provide an overview of the engagement process including the responsibilities of each party
- Plan and schedule the implementation activities
- Support the completion of the following activities within the framework of the environment size
  - Creation and validation of design diagrams and design analysis
  - Installation and validation of pertinent applications
  - Configuration and testing of web solution
  - Configuration of up to five web filtering policies
- Knowledge Transfer
  - Cloud Service Overview
  - Portal Navigation
  - Rule/Policy Creation
  - User/Group Creation
  - Local Events, Alerting and Settings
  - Basic Reporting and Workflow

Client Requirements, Responsibilities and Resource Availability

The client must be able to provide the following components:

- Websense licenses and any applicable servers and databases
- AD service account
- Ability to make network changes
- Availability of infrastructure, management, and network resources
- Ability to send test traffic to cloud
- Scheduled downtime

Client will be contacted within 48 hours of their order being processed to schedule the project kick-off call. Actual engagement dates will be determined during the kick-off call.
Package Limitations

• Installation in Websense cloud for companies with up to 500 users
• Assistance with rollout for up to 10 users
• The services within this offering are provided as described, with no changes

Terms & Conditions

• The implementation package is provided pursuant to the Subscription Agreement
• Implementation work must begin within 90 days of the Order or Subscriber forfeits the implementation package
• Subscriber’s assent to the Subscription Agreement constitutes acceptance of the above terms and conditions
• Deliverables within this package are non-negotiable

Applicable add-on Options

• Web Security Advanced Tuning Base I: Ensures the technology is optimized based on best practices by including the remote development of the following set policies: Default, Limited Access, Management and Executive.
• Web Security Advanced Tuning Base II: Includes the development of an additional 3 custom policies to ensure the technology is optimized based on best practices. Must be sold as an add-on to Web Security Advanced Tuning Base I.
• Additional implementation options are available at www.websense.com/QuickStart
