TRITON® QUICKSTART IMPLEMENTATION PACKAGE

Web Hybrid Module
On Site Delivery,
Large/Enterprise Company

Part Number: WB56-X-XX00-N
TRITON Hybrid Module - Low Complexity QuickStart Implementation
Overview

Proficiency and precision are necessary to effectively implement quality security solutions. To help you get the most out of your Websense® Web Security Gateway solution, Websense provides implementation packages to:

- Deploy your solution efficiently and effectively
- Optimize your security policies
- Maximize your satisfaction with the implementation process

Deliverables and Responsibilities

Delivery personnel will work closely with client staff to perform the following activities:

- Facilitate a kick-off meeting to provide an overview of the engagement process including the responsibilities of each party
- Plan and schedule the remote implementation activities
- Support the completion of the following activities within the framework of the environment size
  - Creation and validation of design diagrams and design analysis
  - Installation and validation of pertinent applications and agents
  - Configuration and testing of Web Add-On Hybrid Module
- Knowledge Transfer
  - System and Architecture Overview
  - System Navigation
  - Rule/Policy Creation
  - User/Group Creation
  - Local Events, Alerting and Settings
  - Basic Reporting and Workflow

Client Requirements, Responsibilities and Resource Availability

The client must be able to provide the following components:

- Websense licenses
- SQL database and database accounts
- AD service account
- Ability to make network changes
- Availability of infrastructure, management, and network resources
- Ability to send test traffic to all servers
- Scheduled downtime

Client will be contacted within 48 hours of their order being processed to schedule the project kick-off call. Actual engagement dates will be determined during the kick-off call.
Package Limitations

- This implementation is delivered by remote delivery resources; No onsite delivery element
- Up to 2 appliances included in remote installation of module
- Assistance with rollout for up to 10 users
- The services within this offering are provided as described, with no changes

Terms & Conditions

- The implementation package is provided pursuant to the Subscription Agreement
- Implementation work must begin within 90 days of the Order or Subscriber forfeits the implementation package
- Subscriber's assent to the Subscription Agreement constitutes acceptance of the above terms and conditions
- Deliverables within this package are non-negotiable

Applicable add-on Options

- Web Security Advanced Tuning Base I: Ensures the technology is optimized based on best practices by including the remote development of the following set policies: Default, Limited Access, Management and Executive.
- Web Security Advanced Tuning Base II: Includes the development of an additional 3 custom policies to ensure the technology is optimized based on best practices. Must be sold as an add-on to Web Security Advanced Tuning Base I.
- Additional implementation options are available at www.websense.com/QuickStart
