Web Security Add-on 1 QuickStart Implementation
Overview

Proficiency and precision are necessary to effectively implement quality security solutions. To help you get the most out of your Websense® Web Security Gateway solution, Websense provides implementation packages to:

- Deploy your solution efficiently and effectively
- Optimize your security policies
- Maximize your satisfaction with the implementation process

Deliverables and Responsibilities

Delivery personnel will work closely with client staff to perform the following activities:

- Facilitate a kick-off meeting with the client to provide an overview of the engagement process, including scheduling and responsibilities
- Completion of working sessions to identify:
  - Priorities exclusive to the client
  - Business rules that impact web usage
  - Validation of the policies before deployment
- Deployment of up to all four set policies (Default, Limited Access, Management and Executive) tailored to the client based on work session findings
- Deliverables include:
  - Best practice policy summary document

Client Requirements, Responsibilities and Resource Availability

The client must be able to provide the following resources in order to effectively implement advanced policy solutions:

- Compliance and HR Group
- Web Security Program Management
- Websense Administrators

Client will be contacted within 48 hours of their order being processed to schedule the project kick-off call. Actual engagement dates will be determined during the kick-off call.
