TRITON® QUICKSTART
ADD-ON PACKAGE

Performance Tuning – Data
Remote Delivery,
Small/Mid-size Company

Part Number: DTA1-X-XX00-N
Performance Tuning – Data Add-on Implementation
Overview

Proficiency and precision are necessary to effectively implement quality security solutions. To help you get the most out of your Websense® security solutions, Websense provides an additional Performance Tuning Add-on implementation designed to:

- Deploy your solution efficiently and effectively
- Optimize your security policies
- Maximize your satisfaction with the implementation process

Deliverables and Responsibilities

Delivery personnel will work closely with client staff to perform the following activities:

- Performance Tuning – DLP
  - Data Security Extensive Tuning: Creates customized DLP policies/rules utilizing custom classifiers to better address unique, unstructured data loss incidents. Includes multiple interactions with delivery resources to interpret results and tune policies/rules.

Client Requirements, Responsibilities and Resource Availability

- Performance Tuning – DLP
  - Client will work with implementation engineer to identify 5 policies/rules that are relevant for the organization
  - The client will communicate with internal departments to determine which business partners/entities are deemed as acceptable risks and thereby allowed

Engagement dates will be determined during the kick-off call for the underlying Websense product implementation. Client will be contacted within 48 hours of their order being processed to schedule the project kick-off call.
TRITON QUICKSTART ADD-ON PACKAGE
