TRITON QUICKSTART IMPLEMENTATION PACKAGE

Overview

Proficiency and precision are necessary to effectively implement quality security solutions. To help you get the most out of your Websense® Data Security Suite solution, Websense provides implementation packages to:

- Deploy your solution efficiently and effectively
- Optimize your security policies
- Maximize your satisfaction with the implementation process

Deliverables and Responsibilities

Delivery personnel will work closely with client staff to perform the following activities:

- Facilitate a kick-off meeting to provide an overview of the engagement process, including the responsibilities of each party
- Plan and schedule the installation and implementation activities
- Support the completion of the following activities within the framework of the environment size:
  - DSS Endpoint creation
  - Testing via Gold/Standard Desktop Image
  - Troubleshooting support during distribution via customer software tool (SCCM for example)
- Knowledge Transfer
  - System and Architecture Overview
  - System Navigation
  - Rule/Policy Creation
  - User/Group Creation
  - Local Events, Alerting and Settings
  - Basic Reporting and Workflow

Client Requirements, Responsibilities and Resource Availability

The client must be able to provide the following components:

- Websense licenses
- Endpoint distribution
- AD service account
- Availability of infrastructure, management, and network resources
- Scheduled downtime

Client will be contacted within 48 hours of their order being processed to schedule the project kick-off call. Actual engagement dates will be determined during the kick-off call.
TRITON QUICKSTART IMPLEMENTATION PACKAGE

Package Limitations

- This implantation package would require a 4 week lead time to make appropriate travel arrangements
- Any engagement, subsequent to the initially scheduled onsite would be handled remotely
- This installation will not replace a Data Security Assessment in which data is scanned and classified
- This implementation will not enable a finely tuned set of DLP rules which thereby enable significant blocking actions
- This implementation does not address any other Websense Modules other than the Data Endpoints
- The services within this offering are provided as described, with no changes

Terms & Conditions

- The implementation package is provided pursuant to the Subscription Agreement
- Implementation work must begin within 90 days of the Order or Subscriber forfeits the implementation package
- Subscriber’s assent to the Subscription Agreement constitutes acceptance of the above terms and conditions
- Deliverables within this package are non-negotiable

Applicable add-on Options

- Performance Tuning - DLP: Creates customized DLP policies/rules utilizing custom classifiers to better address unique, unstructured data loss incidents.
- Data Security Extensive Tuning: Creates customized DLP policies/rules utilizing custom classifiers to better address unique, unstructured data loss incidents. Includes multiple interactions with delivery resources to interpret results and tune policies/rules.
- Additional implementation options are available at www.websense.com/QuickStart
