Release Notes for Forcepoint Web Security Proxy Connect Endpoint for Windows (Build 19.10.4281)

Updated 7-Nov-2019

Applies to:	Forcepoint Web Security Cloud

This updated release of the Forcepoint Web Security Proxy Connect Endpoint for Windows, known as build 19.10.4281, is an update of the previously released Forcepoint Web Security Proxy Connect Endpoint, build 19.08.4131.

Use this release if:

- You are a brand-new Forcepoint Web Security cloud customer.

  or

- You have deployed an earlier Forcepoint Web Security Proxy Connect Endpoint release in your organization, and one or more of the fixes in this release are important to you.

You do not need to use this release if:

- You have deployed an earlier Forcepoint Endpoint release and all is going well.

Use these Release Notes to learn what is in this release of Forcepoint Web Security Proxy Connect Endpoint.

- *New in this release*
- *Installation and upgrade*
- *Resolved and known issues*

For a full list of supported browsers and operating systems for each endpoint version, see the [Certified Product Matrix](#).

For more information about past releases, see the Release Notes on the [Forcepoint Web Security Endpoint Cloud](#) documentation page.

New in this release

Updated 7-Nov-2019

Applies to:	Forcepoint Web Security Cloud

There are no new features in this release. This is an incremental release that contains content from the previous release (19.08.4131), along with quality improvements based on internal testing.

For more information about past releases, see the Release Notes on the [Forcepoint Web Security Endpoint Cloud](#) documentation page.

Support for latest browsers and operating systems

Browsers and operating systems are tested with existing versions of Forcepoint One Endpoint when they become available. For a full list of supported browsers and operating systems for each endpoint version, see the [Certified Product Matrix](#).

When you deploy Proxy Connect Endpoint to Windows endpoints with Firefox v53 or higher installed, follow the below deployment guidance:

Edit the **HWSConfig.xml** configuration file to specify the following configuration parameters in "ProxySetting":

```
<FirefoxSetting FirefoxConfigCFGFileName="mozilla.cfg"
FirefoxConfigJSFileName="channel-perfs.js" />
```

Installation and upgrade

Updated 7-Nov-2019

Applies to:	Forcepoint Web Security Cloud

For information about configuring and deploying the endpoint software, see:

■ [Forcepoint Security Portal Help](#)

For information about installing and uninstalling the Forcepoint One Endpoint software, see:

■ [Installation and Deployment Guide for Forcepoint One Endpoint](#)

For information about upgrading Forcepoint One Endpoint software, see:

■ [Upgrade Guide for Forcepoint One Endpoint](#)

For information about using the Forcepoint One Endpoint software, see:

■ [End User's Guide for Forcepoint One Endpoint](#)
