What's new in Websense TRITON AP-MOBILE?

Topic 65096 / Updated:2-Feb-2015

Applies To:	TRITON AP-WEB with Web Cloud module
	TRITON AP-MOBILE integrated with AirWatch MDM
	Cloud Security 2015 Release 1

This release introduces a new name for TRITON Mobile Security integrated with AirWatch MDM and provides updates to known and resolved issues.

TRITON APX

To address the wide-scale adoption of cloud and mobile technologies, along with a rapid growth in distributed workforces, Websense, Inc., is excited to launch a new, industry-leading security suite - Websense TRITON APX 8.0. www.websense.com/apx. This new modular platform provides **advanced threat and data theft protectio**n for organizations that wish to embrace new technologies and working practices. TRITON APX provides protection across the entire kill-chain, reveals actionable intelligence, and enables real-time feedback to educate and motivate end users to avoid risky behavior. This product release is the culmination of eighteen months of business transformation and innovation. As a result, Websense customers are now able to maximize the unparalleled protection and ROI of Websense TRITON APX solutions well into the future.

The launch of TRITON APX introduces new names and packaging for Websense security solutions. The Websense mobile security solution that is integrated with AirWatch MDM is now known as Websense TRITON AP-MOBILE integrated with AirWatch MDM.

The same great security features and mobile device management capabilities are there. The look is the same as well.

The new names and packaging are designed to simplify your ordering process.

For a list of all product name changes, refer to the TRITON APX Release Notes.
