# Forcepoint

# Next Generation Firewall

## 6.5.11, Hotfix 1

## Release Notes

# About this release

This document contains important information about Hotfix 1 for version 6.5.11 of the Forcepoint Next Generation Firewall (Forcepoint NGFW).

We strongly recommend that you upgrade to this Hotfix release only if it contains fixes for issues that impact your environment. We also recommend that you upgrade to the next official Forcepoint NGFW maintenance release as soon as it becomes available.

You can only upgrade to this Hotfix release from Forcepoint NGFW 6.5.11. For more information about the contents of Forcepoint NGFW 6.5.11, see the Release Notes for that specific version.

# Build number and checksums

The build number for this release is 21603.hotfix.1.

Use checksums to make sure that files downloaded correctly.

# Resolved issues

These issues have been resolved since the release of Forcepoint NGFW 6.5.11. For a list of issues fixed in a previous release, see the Release Notes for the specific release.

| Description | Role | Issue number |
|---|---|---|
| Dynamic routing has been optimized to work faster with a large number of announced networks and prefix lists. | FW | NGFW-30929 |

# Upgrade instructions

To upgrade the NGFW Engine to version 6.5.11, Hotfix 1, use the remote upgrade feature in the Management Client component of the Forcepoint NGFW Security Management Center (SMC). For details, see the relevant sections in the *Forcepoint Next Generation Firewall Installation Guide*.

# Find product documentation

On the Forcepoint support website, you can find information about a released product, including product documentation, technical articles, and more.

You can get additional information and support for your product on the Forcepoint support website at https://support.forcepoint.com. There, you can access product documentation, release notes, Knowledge Base articles, downloads, cases, and contact information.

You might need to log on to access the Forcepoint support website. If you do not yet have credentials, create a customer account. See https://support.forcepoint.com/CreateAccount.
