## About this release

This document contains important information about the current release. We strongly recommend that you read the entire document.

McAfee® VPN Client for Mac is an end-user component for use with the McAfee® Next Generation Firewall (McAfee NGFW) solution. McAfee VPN Client provides a secure remote connection to your company network. Strong encryption prevents eavesdropping and modification of the traffic. McAfee VPN Client enables easy and secure remote access to private networks where McAfee NGFW is used as a VPN gateway.

McAfee VPN Client uses the SSL protocol only and by default uses port 443.

## System requirements

McAfee VPN Client is compatible with OS X version 10.10 (Yosemite).

## Build version

McAfee VPN Client build version is 1.0.0.1004.

## Product binary checksums

Use the checksums to make sure that the installation files downloaded correctly.
