# About this release

This document contains important information about the current release of Stonesoft® VPN Client for Android. We strongly recommend that you read the entire document.

Stonesoft VPN Client for Android is an end-user component for use with the Stonesoft® Next Generation Firewall by Forcepoint (Stonesoft NGFW) solution. Stonesoft VPN Client provides a secure remote connection to your organization's internal network. Strong encryption prevents eavesdropping and modification of the traffic. Stonesoft VPN Client enables easy and secure remote access to private networks where Stonesoft NGFW is used as a VPN gateway.

## System requirements

Stonesoft VPN Client for Android requires Android 4.0 or later. Stonesoft VPN Client can be installed on both phones and tablets.

## Build version

Stonesoft VPN Client 2.0.1 build version is 1013.

## Compatibility

Stonesoft VPN Client for Android version 2.0.1 is recommended to be used with the following Stonesoft NGFW component versions.

| Component | Minimum compatible version | Recommended version |
|---|---|---|
| Stonesoft® Management Center (SMC) (formerly known as McAfee® Security Management Center) | 5.8.1 | Latest 6.1.x maintenance version or newer |
| Stonesoft Next Generation Firewall (Stonesoft NGFW) in the Firewall/VPN role (formerly known as McAfee® Next Generation Firewall) | 5.8.1 | Latest 6.1.x maintenance version or newer |

# Resolved issues

These issues are resolved in this release of the product. For a list of issues fixed in earlier releases, see the Release Notes for the specific release.

| Description | Issue number |
|---|---|
| Software libraries that are used in the Stonesoft VPN Client have been updated. | VPN-23 |

# Installation instructions

Download and install the Stonesoft VPN Client app from the Google Play store.

To complete the VPN settings with your company-specific details, contact your Stonesoft NGFW administrator.

# Known issues

For a list of known issues in this product release, see Knowledge Base article 10235.

# Find product documentation

On the Forcepoint support website, you can find information about a released product, including product documentation, technical articles, and more.

You can get additional information and support for your product on the Forcepoint support website at https://support.forcepoint.com. There, you can access product documentation, Knowledge Base articles, downloads, cases, and contact information.

## Product documentation

Every Forcepoint product has a comprehensive set of documentation.
