About this release

This document contains important information about the current release of Stonesoft® VPN Client for Mac OS X. We strongly recommend that you read the entire document.

Stonesoft VPN Client is an end-user component for use with the Stonesoft® Next Generation Firewall by Forcepoint (Stonesoft NGFW) solution. Stonesoft VPN Client provides a secure remote connection to your organization's internal network. Strong encryption prevents eavesdropping and modification of the traffic. Stonesoft VPN Client enables easy and secure remote access to private networks where Stonesoft NGFW is used as a VPN gateway.

Note: Stonesoft VPN Client for Mac OS X uses the SSL protocol only and by default uses port 443.

System requirements

Stonesoft VPN Client is compatible with Mac OS X version 10.11 (El Capitan).

Build version

Stonesoft VPN Client 2.0.1 build version is 1013.

Product binary checksums

Use the checksums to make sure that the installation files downloaded correctly.

Compatibility

Stonesoft VPN Client for Mac OS X is recommended to be used with the following Stonesoft NGFW component versions.

Component	Minimum compatible version	Recommended version
Stonesoft® Management Center (SMC) (formerly known as McAfee® Security Management Center)	5.8.1	Latest 6.1.x version or newer
Stonesoft Next Generation Firewall (Stonesoft NGFW) in the Firewall/VPN role (formerly known as McAfee® Next Generation Firewall)	5.8.1	Latest 6.1.x version or newer

Resolved issues

These issues are resolved in this release of the product. For a list of issues fixed in earlier releases, see the Release Notes for the specific release.

Description	Issue number
If you move the computer where you use the Stonesoft VPN Client for Mac OS X to a different network while you are connected to an SSL VPN tunnel, attempts to connect to the VPN from the new network fail. The following message is shown: "Connection Error. Too many reconnection attempts. You are disconnected from the server."	135416
Software libraries that are used in the Stonesoft VPN Client have been updated.	135573

Installation instructions

For information about installing or upgrading Stonesoft VPN Client, see *Stonesoft VPN Client User Guide* for Mac.

Known issues

For a list of known issues in this product release, see Knowledge Base article [10234](#).

Find product documentation

On the Forcepoint support website, you can find information about a released product, including product documentation, technical articles, and more.

You can get additional information and support for your product on the Forcepoint support website at <https://support.forcepoint.com>. There, you can access product documentation, Knowledge Base articles, downloads, cases, and contact information.

Product documentation

Every Forcepoint product has a comprehensive set of documentation.
