About this release

This document contains important information about the current release. We strongly recommend that you read the entire document.

Stonesoft® VPN Client for Windows is an end-user component for use with Stonesoft® Next Generation Firewall by Forcepoint (Stonesoft NGFW). The Stonesoft VPN Client provides a secure remote connection to your company network. Strong encryption prevents eavesdropping and modification of the traffic. The Stonesoft VPN Client provides easy and secure remote access to private networks where Stonesoft NGFW is used as a VPN gateway.

System requirements

The Stonesoft VPN Client is compatible with several Microsoft Windows operating systems and needs a specific software environment.

- Use any of these operating systems, 32-bit or 64-bit:
 - Windows 10
 - Windows 8.1
 - Windows 7 with Service Pack 1
- Microsoft .NET Framework 4.5

Build version

The Stonesoft VPN Client 6.0.0 for Windows build version is 3003.

Product binary checksums

Use the checksums to make sure that the installation files downloaded correctly.

Compatibility

Stonesoft VPN Client is recommended for use with these Stonesoft NGFW component versions.

Component	Minimum compatible version	Recommended version
Stonesoft® Management Center (SMC) (formerly known as McAfee® Security Management Center)	5.8.1	Latest 5.10.x maintenance version or newer
Stonesoft Next Generation Firewall (Stonesoft NGFW) in the Firewall/VPN role (formerly known as McAfee® Next Generation Firewall)	5.8.1	Latest 5.10.x maintenance version or newer

New features

This release of the product includes these new features.

Rebranding

Stonesoft Next Generation Firewall (Stonesoft NGFW) is now part of Forcepoint. The look and feel of the Stonesoft VPN Client has been updated to reflect the Forcepoint brand.

Support for IPv6 addresses

Stonesoft VPN Client for Windows now supports IPsec connections to IPv6 tunnel endpoints. The traffic inside the tunnel is IPv4 traffic. SSL VPN tunnels do not use IPv6 addresses as endpoints.

Resolved issues

These issues are resolved in this release of the product. For a list of issues fixed in earlier releases, see the Release Notes for the specific release.

Description	Issue number
The installation of the client application can fail because the needed privileges are not correctly elevated.	125607

Installation instructions

For information about installing or upgrading the Stonesoft VPN Client, see the *Stonesoft VPN Client Product Guide* and *Stonesoft VPN Client User Guide*.

Before upgrading your Windows operating system to Windows 10, uninstall the existing Stonesoft VPN Client. On Windows 10, use the latest version of the Stonesoft VPN Client (6.0).

Known issues

For a list of known issues in this product release, see this KnowledgeBase article: [KB87318](#).

Find product documentation

On the **ServicePortal**, you can find information about a released product, including product documentation, technical articles, and more.

1. Go to the **ServicePortal** at <https://support.mcafee.com> and click the **Knowledge Center** tab.
2. In the **Knowledge Base** pane under **Content Source**, click **Product Documentation**.
3. Select a product and version, then click **Search** to display a list of documents.

Product documentation

Every Forcepoint product has a comprehensive set of documentation.
