Topic 45184 / Updated: 5-May-2015

<b>Applies To:</b>	Websense® TRITON APX Solutions v8.0.1
--------------------	---------------------------------------

Use the Release Notes to find information about what's new and improved in Websense TRITON Manager and management server, Version 8.0.1.

## Contents

- ◆ [\*New in TRITON APX v8.0.1\*](#)
- ◆ [\*Resolved and Known issues\*](#)

Through the TRITON Manager, you can manage TRITON AP-WEB, TRITON AP-DATA, and TRITON AP-EMAIL from the same management application. The following release notes are available for each TRITON product:

- ◆ [v8.0.1 Release Notes for TRITON AP-WEB](#)
- ◆ [v8.0.1 Release Notes for TRITON AP-DATA](#)
- ◆ [v8.0.1 Release Notes for TRITON AP-EMAIL](#)

The release notes below are also available for v8.0.1:

- ◆ [v8.0.1 Release Notes for Websense V-Series Appliances](#)

# New in TRITON APX v8.0.1

Topic 45185 / Updated: 5-May-2015

<b>Applies To:</b>	Websense TRITON APX Solutions v8.0.1
--------------------	--------------------------------------

Version 8.0.1 is a maintenance release that provides a small number of features and several important corrections for Websense TRITON APX solutions. The focus in this release is on responding to customer requests.

Previous product functionality remains intact. The user interface has the same familiar look and feel and the core product continues to provide the strong protections you've come to rely on.

## Supported browsers for servers

Support has been added for Firefox up to v35, and Google Chrome up to v40.

For the full list of supported browsers, see the [Websense TRITON APX Installation Guide](#) and [Upgrading to TRITON APX Enterprise Core v8.0.x](#).

## Deployment

Installation for Websense TRITON products in your subscription is performed with a single installer for the TRITON infrastructure and reporting database. From this installer you can launch the installation of the individual TRITON products, as required.

To upgrade to TRITON APX products at version 8.0.1:

- ◆ Websense Web Filter and Websense Web Security software-only deployments (no Websense appliances) must be at version 7.7.x or later.
- ◆ All other deployments, or Web Filter and Web Security appliance-based deployments, must be at version 7.8.x or later.

For more information, see the release notes for individual TRITON products, and the Installation Guides and Upgrade Guides in the Websense Technical Library.

See the [Websense TRITON APX Installation Guide](#) and the Release Notes for each TRITON product for more information.

# Resolved and Known issues

Topic 45186 / Updated: 5-May-2015

<b>Applies To:</b>	Websense TRITON APX Solutions v8.0.1
--------------------	--------------------------------------
