Cloud Web Security Report Mapping and New Reports

Updated: 2-September-2014

Applies to:	Websense® Cloud Web Security, 2014 Release 5

This document lists the reports in the current Cloud Web Security reporting system, and shows how they map to the new reporting system available from mid-September 2014. The list includes the Report Catalog folders in which the new reports are located.

Reports that have been added to Cloud Web Security in the new reporting system are listed in *New Cloud Web Security Reports*.

Report Mapping

Rows shaded in grey indicate deprecated reports. These reports have been removed from the system as they were not being used by customers.

Current Report Name	Report Catalog Folder	New Report Name
Application Control Reports		
Individual User Investigation Report	Social Media	Detailed Social Media Site Report
Major Application Groups	Social Media	Top Social Media Trends
Minor Application Types	N/A	N/A
Top Users of Major Applications	Social Media	Top Social Media Users and Parent Categories
Top Users of Minor Applications	N/A	N/A
Authentication and Endpoint Reports		
Authentication Methods	Advanced	Authentication Method Details
Authentication Methods Summary	Advanced	Authentication Methods
Endpoint Client Installations	Advanced	Installed Endpoint Clients
Endpoint Users	Advanced	Endpoint Users

Current Report Name	Report Catalog Folder	New Report Name
Installed Endpoint Summary	Advanced	Installed Endpoint Client Statistics
Browsing Times Reports		
Browsing Times by Category	Web Activity	Category Trend by Browse Time
Browsing Times by Disposition	Web Activity	Filtering Actions Report
Browsing Times by Policy	Web Activity	Top Policies
Browsing Times by Site	Web Activity	Top Domains
Browsing Times by Time	Web Activity	Category Trend by Browse Time
Browsing Times by User	Web Activity	Top Users
Protocols Reports (i-Series appliance only)		
Daily Summary	Protocols	Detailed Protocol Statistics
Detailed Summary	Protocols	Protocol Transaction Details
Exception Request Log	Protocols	Blocked Protocol Transactions
Overall Volumes	Protocols	Protocol Bandwidth by Date
Volumes by Disposition	Protocols	Protocol Bandwidth by Filtering Action
Volumes by Policy	Protocols	Top Policies by Bandwidth
Volumes by Protocol	Protocols	Top Protocols by Bandwidth
Volumes by Protocol Group	Protocols	Top Protocol Groups by Bandwidth
Volumes by Time	Protocols	Protocol Bandwidth by Date
Volumes by User	Protocols	Top Users by Bandwidth
Real-Time Analysis Reports		
Detail of Real-Time Blocked Requests	Security	Security Threat Details
Detail of Security Blocked Requests	Security	Security Threat Transaction Details
Malware Detail	Security	Antivirus Transaction Details
Malware Volumes	Security	Antivirus Threats
Security Classification of Analyzed Requests	N/A	N/A
Security Risk Volumes by Site	Security	Security Threat Domains
Security Risk Volumes by Time	Security	Security Category Trend by Hits
Security Risk Volumes by User	Security	Top Security Risk Users and Domains
Spyware Activity Summary	Security	Top Users of Spyware Sites
Top Web 2.0 Users	Web Activity	Top Web 2.0 Users

Current Report Name	Report Catalog Folder	New Report Name
Web 2.0 User Activity Summary	Web Activity	Detailed Web 2.0 Activity Report
Web 2.0 Volumes by Category	Web Activity	Top Web 2.0 Categories
Volumes Reports		
Daily Summary	Web Activity	Requested Domains by Date
Detailed Summary	Web Activity	Detailed User Request Report
Exception Request Log	Productivity	Blocked Request Details
Overall Volumes	Web Activity	Web Requests by Date
User Agents by Volume	Advanced	User Agents
Volumes by Category	Web Activity	Category Trend by Hits
Volumes by Disposition	Web Activity	Filtering Actions Report
Volumes by Policy	Web Activity	Top Policies
Volumes by Site	Web Activity	Top Domains
Volumes by Time	Web Activity	Web Requests by Date
Volumes by User	Web Activity	Top Users
Web Performance	Advanced	Detailed Web Access Statistics

New Cloud Web Security Reports

The following reports have been added to the new Cloud Web Security reporting system.

Report Name	Description	Report Catalog Folder
Top Protocols by Bandwidth	The protocols that have used the most bandwidth.	Bandwidth
Top Web 2.0 Domains by Bandwidth	The top 10 domains in Web 2.0 categories that have used the most bandwidth.	Bandwidth
Top Categories by Bandwidth	The top 10 categories that have used the most bandwidth in the last month.	Bandwidth
Top Groups for Streaming Media Bandwidth	The top 10 groups that have used the most bandwidth accessing streaming media sites.	Bandwidth
Top Users for Streaming Media Bandwidth	The top 10 users that have used the most bandwidth accessing streaming media sites.	Bandwidth
Top Streaming Media Domains by Bandwidth	The top 10 streaming media sites that have used the most bandwidth.	Bandwidth
Top Groups in Bandwidth Category	The top 10 groups containing users who accessed sites in the Bandwidth category.	Bandwidth

Report Name	Description	Report Catalog Folder
Top MIME Types by Bandwidth	The top 10 file types that have used the most bandwidth.	Bandwidth
Top Users of Adult Material Sites	The top 10 users who accessed sites in the Adult Material category.	Misconduct
Top Legal Liability Categories	The top 10 categories containing accessed sites that may be a legal liability risk.	Misconduct
Top Users of Hacking Sites	The top 10 users who accessed sites in the Hacking category.	Misconduct
Top Categories for Blocked Sites	The top 10 categories containing blocked sites.	Productivity
Top Groups for Blocked Sites	The top 10 groups containing users who requested blocked sites.	Productivity
Top Blocked Domains	The top 10 domains that were blocked most frequently.	Productivity
Top Blocked Users	The top 10 users who have requested blocked sites.	Productivity
Browsing Times of Groups and Users	Browsing times of the most frequent users and groups.	Productivity
Top Policies for Blocked Sites	The top 10 policies that have requested blocked sites.	Productivity
Top Productivity Loss Users	Browsing times for the top 10 users who have accessed sites classed as a productivity loss risk.	Productivity
Top Productivity Site Users	The top 10 users who have accessed sites in the Productivity category.	Productivity
Top Quota Time Categories	The top 10 categories containing quota time sites.	Productivity
Top Blocked Users and Hosts	Blocked host names listed for the top 10 users.	Productivity
Risk Class Trend by Hits	Statistics for requests to sites in all risk classes in the last month.	Risk Activity
Top Users of Risk Class Sites	The top 10 users who have requested sites in risk classes.	Risk Activity
Risk Class Trend by Bandwidth	Bandwidth used by requests to sites in all risk classes in the last month.	Risk Activity
Blocked Security Threats by Category	Security threats that have been blocked in the last month, grouped by category.	Security
Top Users for Blocked File Types	The top 20 users who attempted to access file types blocked as a security risk.	Security
Top Security Categories and Threat Types	The top 10 categories containing blocked threat types in the last month.	Security
Top Users for Security Threats by Domain	The top 20 users who accessed threats, listed by domain.	Security

Report Name	Description	Report Catalog Folder
Top Threat Types	The top 20 threat types in the security risk class that have been blocked.	Security
Top Users of Security Risk Sites	The top 10 users who accessed sites in the security risk class.	Security
Top Security Threat Categories	Bandwidth and browse time details for the top 10 categories containing requests that pose a security threat.	Security
Top Users for Security Scanning	The top 10 users who requested sites that triggered the security scanning analytic.	Security
Top Groups Accessing Spyware	The top 10 groups containing users who accessed sites in the Spyware category.	Security
Top Phishing Hosts	Requests to the top 10 hostnames in the Phishing category.	Security
Top Spyware Hosts	Requests to the top 10 hostnames in the Spyware category.	Security
Top Users for Outbound Spyware	The top 10 users who sent content to sites in the Spyware category.	Security
Phishing Sites by Date	Requests to phishing and other fraud sites in the last month.	Security
Security Threats by Date	Requests to sites in the security risk class in the last month.	Security
Top Protocols for Security Threats	The top 10 protocols containing security threats in the last month.	Security
Top Security Threats	The top 10 threats from secure sites in the Security risk class during the last month.	Security
Facebook Categories by Browse Time	Browse times for sites in the Facebook parent category in the last 7 days.	Social Media
Social Networking Domains by Bandwidth	Bandwidth used for the top 10 domains in the Social Networking category in the last 7 days.	Social Media
Top Facebook Users by Bandwidth	Bandwidth used by the top 10 Facebook users in the last 7 days.	Social Media
Top Social Networking Users by Bandwidth	Bandwidth used by the top 10 social networking users in the last 7 days.	Social Media
Top Social Media Users	The top 10 users requesting sites in social media categories in the last 7 days.	Social Media
Top Social Media Users and Categories	The top 10 users requesting sites in social media categories in the last 7 days, grouped by category.	Social Media
Top Users and Categories	Web activity for top 10 users by category in the last 7 days.	Web Activity
Top Groups	Details of web activity for users in the top 10 groups in the last 7 days.	Web Activity

Report Name	Description	Report Catalog Folder
Top Categories and Domains	Frequently-requested domains in the top 10 categories for the last 7 days.	Web Activity
Top Users and Domains	Web activity for top 10 users by domain in the last 7 days.	Web Activity
Top Categories	Bandwidth, browse times, and hits for the top 20 categories in the last 7 days.	Web Activity
