v7.1.0	v7.5.1	done
v7.1.1	v7.5.1	done
v7.5	v7.5.1	done

See the [Upgrade Supplement](#) for upgrade process details.

Compatibility with V-Series 7.5.x

Web Security Gateway running on Websense V-Series appliances at version 7.5.x (up to v7.5.3) is compatible with v7.5.1 off-box Web Security components (such as Network Agent, Filtering Service, and Policy Server). No upgrade is required for the appliance itself.

New in this version

Version 7.5.1 for Web Security and Web Filter has been certified on new platforms and database management systems.

For a full list of older, certified operating systems and database engines that also run version 7.5.1, see Chapter 2 in the [Deployment Guide](#).

Expanded platform support

Websense Web Security and Websense Web Filter version 7.5.1 is now certified on the following platforms.

- ◆ Red Hat Enterprise Linux 5, update 5 (32-bit)
- ◆ Red Hat Enterprise Linux 4, update 8 (32-bit)

For Logon Application:

- ◆ Windows 7 SP1 (32-bit only)

For Remote Filtering Client:

- ◆ Windows 7 SP1 (32-bit only)

Expanded database engine support

The following database engines are now certified on Websense Web Security and Websense Web Filter version 7.5.1.

- ◆ SQL 2008 SP2 (32 and 64-bit)
- ◆ SQL 2008 R2 (32 and 64-bit)
- ◆ SQL 2005 SP4 (32 and 64-bit)

Websense Web Security and Websense Web Filter version 7.5.1 introduces support for the following database feature.

- ◆ SQL cluster (SQL 2008 R2)

Preparation

- ◆ Back up your servers before upgrading.

- ◆ When upgrading to v7.5.1 from v7.0.x or v7.1.x, note that configuration settings in **mng.xml** cannot be saved. Before upgrading, take note of your settings in **mng.xml** (by default located in C:\Program Files\WebSense\tomcat\conf\Catalina\localhost or /opt/WebSense/tomcat/conf/Catalina/localhost directory).
- ◆ When you upgrade to 7.5.1 from v7.0.x or v7.1.x, custom settings for the variable PolicyServerWaitTime in **websense.ini** (located by default in C:\Program Files\WebSense\bin) are not saved. After upgrading, open the **websense.ini** file in the installation directory and make sure parameter settings reflect your desired configuration. .

Resolved and known Issues

A list of [resolved and known issues](#) is available in the Websense Technical Library.
