See [Upgrading Websense Content Gateway to v7.6.2](#) for upgrade process details.

Data Security integration

Websense Content Gateway v7.6.2 is compatible with all v7.6 versions of the Data Security Management Server, including v7.6.2 and later, but Websense recommends that customers upgrade to Data Security v7.6.2 prior to upgrading to Content Gateway v7.6.2.

Websense Content Gateway v7.6.2 can now be integrated with Policy Engine v7.6.2 or later.

Known and resolved issues
